PROJECT CONTRACT

Reference No.: OS-C-26002

This PROJECT CONTRACT ("Contract") is made and entered into this 17th day of October 2026, in Quezon City, Philippines, by and between:

BLEUCIEL AUTOMATIONS INC., a corporation duly organized and existing under the laws of the Republic of the Philippines, with principal office address at 1278 Batangas St., Brgy. San Isidro, Makati City, Philippines, represented herein by its duly authorized representative, KEN HOWARD TY, President, of legal age, hereinafter referred to as the "CLIENT";

-and-

ONESOURCE OUTSOURCING SOLUTIONS, OPC, a one-person corporation duly organized and existing under the laws of the Republic of the Philippines, with principal office address at Pinagsimbahanan, San Rafael, Bulacan, Philippines, represented herein by SHERWIN NAVA ALEGRE, Sole Stockholder and President / Authorized Representative, hereinafter referred to as the "SERVICE PROVIDER" or "ONESOURCE".

The CLIENT and ONESOURCE shall hereinafter be collectively referred to as the "**Parties**" and individually as a "**Party**."

RECITALS

WHEREAS, the CLIENT desires to engage ONESOURCE for one or more technology-related projects, which may include, but shall not be limited to, brand development, website development, customer relationship management (CRM) implementation, artificial intelligence automation, API integration, systems architecture, project management, business analysis, data processing, technical support, systems maintenance, outsourcing, offshoring, and other related technology services;

WHEREAS, ONESOURCE represents that it is engaged in the business of business operations, virtual assistance, information technology services, CRM implementation, systems integration, automation, artificial intelligence implementation, outsourcing, offshoring, and technology consulting, and possesses the technical competence, manpower, business processes, development methodologies, and operational capacity to perform the services contemplated herein;

WHEREAS, the Parties desire that this Contract shall serve as the master legal framework governing their relationship, while the specific project description, scope of work, deliverables, milestones, technical specifications, commercial terms, payment schedule, acceptance criteria, assumptions, dependencies, and exclusions for the GoHighLevel Lead System — Bleuciel Automations Inc Brands (per Proposal OSP-26002) shall be placed in the attached Annex A (Statement of Work) and Annex B (Fees, Billing, and Payment Schedule);

WHEREAS, the Parties acknowledge that technology projects require defined scope management, timely approvals, controlled change requests, protection of confidential information, lawful and secure processing of data, and clear allocation of intellectual property rights;

WHEREAS, ONESOURCE agrees to perform the Services subject to the terms, conditions, limitations, reservations, and protective provisions set forth in this Contract, including those relating to payment protection, suspension of services, confidentiality, non-disclosure, data privacy, intellectual property, non-solicitation, non-circumvention, limitation of liability, and dispute resolution;

NOW, THEREFORE, for and in consideration of the foregoing premises and the mutual covenants herein contained, the Parties agree as follows:

1. GENERAL PROVISIONS AND INTERPRETATION

1.1. This Contract establishes the general legal, commercial, operational, intellectual property, confidentiality, data privacy, payment, and project governance framework governing all engagements between the CLIENT and ONESOURCE. The Parties acknowledge that the success of any Project depends upon timely cooperation, mutual good faith, accurate communication, prompt decision-making, and adherence to agreed project management processes.

1.2. ONESOURCE is engaged as an independent contractor and nothing contained in this Contract shall be construed to create any partnership, joint venture, agency, fiduciary relationship, employer-employee relationship, franchise, or other relationship between the Parties other than that of independent contracting parties.

1.3. ONESOURCE shall be entitled to rely upon the accuracy, completeness, sufficiency, and legality of all information, instructions, specifications, documents, approvals, content, credentials, technical requirements, and representations supplied by the CLIENT. ONESOURCE shall not be responsible for delays, defects, rework, additional costs, compliance issues, or project failures arising from inaccurate, incomplete, misleading, inconsistent, or delayed information supplied by the CLIENT.

1.4. The CLIENT acknowledges that technology projects inherently involve variables including system compatibility, third-party dependencies, platform limitations, infrastructure constraints, security risks, evolving business requirements, software bugs, integration challenges, internet-related disruptions, and external technological changes. Except as expressly provided herein, ONESOURCE does not guarantee uninterrupted operation, compatibility with all future technologies, or achievement of specific business outcomes.

1.5. The Parties agree to act in good faith and cooperate reasonably in the performance of this Contract. Neither Party shall unreasonably withhold, delay, or condition approvals, access, information, or cooperation required for the completion of any Project.

2. NATURE AND STRUCTURE OF THIS CONTRACT

2.1. This Contract shall serve as the master agreement governing all Services performed by ONESOURCE for the CLIENT.

2.2. Each Project shall be governed by a separate Annex, SOW, quotation, or project order, which shall state the applicable scope, Deliverables, fees, timelines, milestones, technical requirements, project assumptions, exclusions, and Acceptance Criteria.

2.3. Each approved Annex shall form part of this Contract only for the Project specifically covered thereby.

2.4. In case of conflict, the following order of precedence shall apply:

a. written amendment signed by both Parties;

b. this Contract, as to legal, payment, liability, confidentiality, data privacy, intellectual property, restrictive covenant, suspension, termination, governing law, and dispute provisions;

c. the applicable Annex, as to project-specific scope, technical requirements, Deliverables, fees, timeline, milestones, and Acceptance Criteria; and

d. proposals, presentations, emails, chats, meeting notes, or other documents, only if expressly incorporated in writing.

2.5. No verbal representation, informal communication, meeting discussion, sales material, preliminary proposal, or electronic message shall amend this Contract or expand ONESOURCE's obligations unless embodied in a written Annex, Change Request, or amendment duly approved by both Parties.

3. ENGAGEMENT OF ONESOURCE

3.1. The CLIENT hereby engages ONESOURCE, and ONESOURCE accepts such engagement, to perform the Services described in the applicable Annex.

3.2. ONESOURCE shall perform the Services with reasonable professional skill, diligence, and care consistent with generally accepted standards applicable to similar technology service providers.

3.3. ONESOURCE shall not be deemed to guarantee any commercial result, profit, revenue, market acceptance, regulatory approval, business continuity, investment return, customer acquisition, or operational success arising from the CLIENT's use of the Deliverables.

3.4. ONESOURCE's obligation is limited to the performance of the Services and delivery of the Deliverables expressly stated in the applicable Annex.

4. SCOPE OF SERVICES

4.1. The Services may include any of the following, if expressly included in the applicable Annex.

4.2. Any item not expressly stated in the applicable Annex shall be deemed excluded.

4.3. ONESOURCE shall not be obligated to perform out-of-scope work unless covered by an approved Change Request.

5. CLIENT OBLIGATIONS

5.1. The CLIENT shall timely provide all information, documents, content, data, credentials, access rights, API keys, technical documentation, third-party subscriptions, business rules, approvals, test accounts, infrastructure access, and personnel cooperation necessary for ONESOURCE to perform the Services.

5.2. The CLIENT shall designate an authorized representative with full authority to provide instructions, approve Deliverables, confirm business requirements, validate Acceptance Criteria, approve Change Requests, receive notices, and bind the CLIENT on project-related matters.

5.3. The CLIENT warrants that all materials, data, instructions, content, software, marks, credentials, accounts, and systems provided or made accessible to ONESOURCE are lawful, accurate, complete, authorized, and do not infringe upon the rights of any third party.

5.4. The CLIENT shall be responsible for securing, maintaining, and paying for all subscriptions, platforms, hosting services, domains, software, tools, and/or accounts required for the Project unless expressly assumed by ONESOURCE in the applicable Annex.

5.5. Delays, defects, additional work, rework, data issues, security incidents, or integration failures caused by the CLIENT, its personnel, its representatives, its data, its systems, its third-party providers, or its delayed approvals shall not be attributable to ONESOURCE.

5.6. Any CLIENT-caused delay shall proportionately extend all affected timelines and may entitle ONESOURCE to additional fees, standby charges, remobilization costs, or Change Request charges.

6. PROJECT GOVERNANCE

6.1. Project communications shall be coursed through the official communication channels stated in the applicable Annex.

6.2. Instructions, approvals, confirmations, comments, or decisions sent through official email, ticketing tools, project management platforms, or other agreed digital channels shall be valid and binding upon the CLIENT.

6.3. The CLIENT shall provide consolidated feedback within the review period stated in the applicable Annex. In the absence of a stated period, the review period shall be five (5) business days from receipt of the relevant submission.

6.4. Conflicting, fragmented, delayed, or constantly revised feedback may be treated by ONESOURCE as a Change Request or as a ground for timeline adjustment.

7. DELIVERY, REVIEW, AND ACCEPTANCE

7.1. Deliverables shall be submitted in accordance with the applicable Annex.

7.2. The CLIENT shall review each Deliverable within the review period stated in the Annex. If no period is stated, the review period shall be five (5) business days from delivery.

7.3. A Deliverable shall be deemed accepted upon the earliest occurrence of any of the following:

a. written or electronic approval by the CLIENT;

b. signing of a Client User Acceptance / Client Acceptance Testing form;

c. payment of the invoice corresponding to the Deliverable or milestone;

d. deployment, publication, launch, operational use, commercial use, or reliance by the CLIENT;

e. failure of the CLIENT to issue a specific written rejection within the applicable review period; or

f. continued access to, testing of, or use of the Deliverable beyond the review period without substantiated objection.

7.4. A rejection shall be valid only if it identifies a material non-conformity with the applicable Acceptance Criteria.

7.5. ONESOURCE shall be given a reasonable opportunity to correct confirmed material non-conformities within the approved scope.

7.6. The following shall not constitute defects: new features, design preferences, revised business rules, additional integrations, change in management direction, undocumented requirements, third-party platform limitations, CLIENT-side data errors, or post-acceptance enhancement requests.

8. CHANGE REQUESTS

8.1. No Change Request shall be valid or binding unless approved in writing by both Parties.

8.2. ONESOURCE may evaluate the impact of each Change Request on scope, timeline, fees, personnel allocation, technical feasibility, dependencies, and project risk.

8.3. ONESOURCE shall have no obligation to commence or continue any out-of-scope work unless the applicable Change Request is approved and any required advance payment is received.

8.4. If the CLIENT directs ONESOURCE to perform additional work before formal execution of a Change Request, and ONESOURCE proceeds in reliance thereon, the CLIENT shall be liable for the corresponding additional charges based on ONESOURCE's prevailing rates.

9. FEES, BILLING, AND PAYMENT

9.1. The fees, billing structure, currency, payment schedule, and payment triggers shall be stated in the applicable Annex.

9.2. Unless otherwise stated in the applicable Annex or otherwise agreed in writing by the Parties, invoices shall be due and payable within five (5) calendar days from submission of the invoice.

9.3. The CLIENT shall pay all invoices in full, free from unauthorized deductions, set-off, counterclaim, withholding, or deferment, except to the extent required by applicable law and properly supported by official tax documentation.

9.4. Any invoice not disputed in writing within five (5) business days from receipt shall be deemed correct, valid, due, and demandable.

9.5. A dispute over a portion of an invoice shall not suspend payment of the undisputed portion.

9.6. All invoices issued by ONESOURCE shall be paid by the CLIENT strictly in accordance with the agreed payment schedule, payment milestones, and payment terms stated in the applicable Annex, Statement of Work, quotation, invoice, or other written commercial document, unless otherwise agreed in writing by ONESOURCE.

9.7. In the event that any invoice remains unpaid after its due date, ONESOURCE shall be entitled, without prejudice to any other remedy available under this Contract or applicable law, to charge interest on the outstanding balance before and after judgment.

9.8. Without limiting the foregoing, any invoice remaining unpaid thirty (30) calendar days after its due date shall automatically incur a surcharge equivalent to two percent (2%) of the outstanding balance per month or fraction thereof until full payment, consistent with applicable provisions of the Civil Code of the Philippines and prevailing commercial practice.

9.9. The imposition of interest, surcharge, collection fees, legal fees, attorney's fees, litigation expenses, arbitration expenses, and other collection costs shall not preclude ONESOURCE from exercising its rights to suspend services, withhold deliverables, terminate the Project, accelerate unpaid obligations, or pursue judicial and extrajudicial remedies.

9.10. Acceptance of partial payments shall not constitute a waiver of ONESOURCE's right to collect the remaining balance, accrued interest, surcharges, penalties, damages, costs, and attorney's fees.

10. SUSPENSION AND WITHHOLDING RIGHTS

10.1. ONESOURCE may suspend Services, pause development, withhold Deliverables, restrict access, delay deployment, stop support, or defer turnover if:

a. the CLIENT fails to pay any amount when due;

b. the CLIENT delays approvals, access, data, or dependencies;

c. the CLIENT requests work outside the approved scope without approved Change Request;

d. continued performance exposes ONESOURCE to legal, security, reputational, operational, or financial risk;

e. the CLIENT breaches confidentiality, data privacy, intellectual property, non-solicitation, or non-circumvention obligations; or

f. the CLIENT otherwise materially breaches this Contract.

10.2. Suspension by ONESOURCE under this Section shall not constitute breach, abandonment, delay, or default.

10.3. All timelines affected by suspension shall be extended for the period of suspension and a reasonable remobilization period.

10.4. ONESOURCE shall not be liable for losses suffered by the CLIENT due to a suspension validly made under this Contract.

11. REIMBURSABLE EXPENSES

11.1. Unless expressly included in the fees, the CLIENT shall reimburse ONESOURCE for approved or necessary project-related expenses, including transportation, accommodation, meals, per diem, travel, cloud services, hosting, domains, software licenses, plugins, paid APIs, third-party tools, subscriptions, hardware, courier fees, specialist fees, and government charges.

11.2. ONESOURCE may require advance funding before incurring substantial reimbursable expenses.

11.3. ONESOURCE shall not be required to advance third-party costs for the CLIENT.

12. REFUND POLICY

12.1. Fees paid to ONESOURCE are generally non-refundable except as expressly provided in this Contract or the applicable Annex.

12.2. Subject to the provisions below, if a Project is terminated by the CLIENT for convenience and not due to any breach, fault, negligence, or default attributable to ONESOURCE, refunds shall be computed based on the percentage of Project completion, project resource allocation, work already performed, and commitments already incurred by ONESOURCE.

12.3. For purposes of determining refundable amounts, Project completion shall be measured based on the approved Project timeline, milestones achieved, resources deployed, deliverables completed, and work performed, as reasonably determined by ONESOURCE and supported by project records.

12.4. Subject to deduction of all completed work, committed resources, third-party costs, reimbursable expenses, taxes, administrative expenses, and non-cancellable obligations already incurred, refunds shall be computed as follows:

a. If termination occurs within the first twenty-five percent (25%) of the approved Project timeline, up to seventy-five percent (75%) of the total estimated Project cost may be refundable;

b. If termination occurs within the second twenty-five percent (25%) of the approved Project timeline, up to fifty percent (50%) of the total estimated Project cost may be refundable;

c. If termination occurs within the third twenty-five percent (25%) of the approved Project timeline, up to twenty-five percent (25%) of the total estimated Project cost may be refundable;

d. No refund shall be applicable if termination occurs after completion of seventy-five percent (75%) of the approved Project timeline or substantial completion of the Project.

12.5. Notwithstanding the foregoing, no refund shall be due for:

a. completed, accepted, or deemed accepted Deliverables;

b. work already performed;

c. resources already reserved, assigned, mobilized, or committed;

d. third-party costs, subscriptions, licenses, cloud services, hosting services, APIs, plugins, or software expenses incurred;

e. deposits designated as non-refundable;

f. delays, suspension, cancellation, or termination caused by the CLIENT;

g. changes in CLIENT preferences, business strategy, ownership structure, budget allocation, management direction, or operational requirements;

h. CLIENT's failure to provide approvals, access, information, content, data, credentials, infrastructure, or dependencies; and

i. termination resulting from CLIENT breach of this Contract.

12.6. Any refund due shall be subject to final accounting, deduction of applicable taxes, administrative charges, bank fees, professional fees, resource costs, project management costs, and all amounts already earned or incurred by ONESOURCE.

12.7. No refund shall become due unless the CLIENT has fully settled all outstanding invoices, reimbursable expenses, third-party charges, accrued interests, surcharges, and other amounts payable under this Contract.

13. CONFIDENTIALITY AND NON-DISCLOSURE

13.1. Each Party shall protect the other Party's Confidential Information with at least the same degree of care it uses to protect its own confidential information, but in no case less than reasonable care.

13.2. The receiving Party shall not use Confidential Information except for the performance of this Contract.

13.3. The receiving Party shall not disclose Confidential Information to any third party except to its directors, officers, employees, consultants, subcontractors, advisers, or representatives who have a legitimate need to know and are bound by confidentiality obligations.

13.4. Confidential Information shall not include information that is publicly available through no breach, lawfully known before disclosure, independently developed without use of Confidential Information, lawfully obtained from a third party, or required to be disclosed by law.

13.5. If disclosure is legally compelled, the receiving Party shall, unless prohibited by law, give prompt notice to the disclosing Party and cooperate in seeking confidential treatment.

13.6. Breach of this Section shall constitute a material breach and may entitle the injured Party to damages, injunctive relief, specific performance, attorney's fees, and other remedies available under law.

13.7. Confidentiality obligations shall survive for five (5) years from termination, and indefinitely as to trade secrets, source code, credentials, personal data, security information, proprietary systems, and highly sensitive business information.

14. DATA PRIVACY AND DATA SECURITY

14.1. The Parties shall comply with applicable data protection laws, including the Data Privacy Act of 2012, its implementing rules, and issuances of the National Privacy Commission.

14.2. Unless otherwise stated in the applicable Annex, the CLIENT shall be deemed the Personal Information Controller and ONESOURCE shall be deemed the Personal Information Processor with respect to personal data processed by ONESOURCE on behalf of the CLIENT.

14.3. The CLIENT warrants that all personal data provided to or accessed by ONESOURCE has been lawfully collected, processed, shared, disclosed, transferred, and made available for the purposes of the Project.

14.4. The CLIENT shall be responsible for all privacy notices, consents, lawful bases, data subject communications, regulatory filings, cross-border transfer requirements, and sector-specific privacy obligations applicable to its business.

14.5. ONESOURCE shall process CLIENT data only for purposes of performing the Services, complying with documented instructions, maintaining security, fulfilling legal obligations, or exercising rights under this Contract.

14.6. ONESOURCE shall implement reasonable organizational, physical, and technical security measures appropriate to the nature of the Services.

14.7. ONESOURCE shall not be liable for data incidents arising from CLIENT systems, CLIENT personnel, weak or shared credentials, third-party platforms, insecure infrastructure not controlled by ONESOURCE, unauthorized CLIENT modifications, phishing, social engineering, or CLIENT's failure to follow recommended controls.

14.8. Each Party shall promptly notify the other of any confirmed data breach or material security incident affecting the other Party's data.

14.9. Upon termination or expiration, ONESOURCE shall return, delete, anonymize, or securely dispose of CLIENT data upon written instruction, subject to lawful retention, backup cycles, dispute preservation, accounting records, and legitimate business purposes.

15. INTELLECTUAL PROPERTY

15.1. Unless otherwise stated in the applicable Annex, ownership of Deliverables specifically and exclusively developed for the CLIENT shall transfer to the CLIENT only upon full and final payment of all amounts due to ONESOURCE.

15.2. Until full payment, all Deliverables, source code, work-in-progress, documentation, configurations, designs, repositories, credentials, and related outputs shall remain the property of ONESOURCE.

15.3. ONESOURCE shall retain exclusive ownership of all Background Technology.

15.4. No ownership rights over ONESOURCE's Background Technology shall pass to the CLIENT.

15.5. To the extent Background Technology is embedded in or necessary to use the Deliverables, ONESOURCE grants the CLIENT, upon full payment, a non-exclusive, non-transferable, royalty-free license to use such Background Technology solely as incorporated in the Deliverables and solely for the CLIENT's internal business purposes.

15.6. Source code turnover shall be required only if expressly stated in the applicable Annex and only after full payment.

15.7. If source code turnover is not expressly included, ONESOURCE may deliver deployed access, object code, admin access, documentation, or other operational access sufficient for the agreed use.

15.8. The CLIENT shall not reverse engineer, decompile, disassemble, extract, resell, sublicense, assign, distribute, publish, or commercially exploit ONESOURCE's Background Technology.

15.9. Third-Party Materials and open-source components shall remain governed by their respective license terms. The CLIENT shall be responsible for compliance with such terms and for payment of corresponding third-party fees.

15.10. ONESOURCE may retain and use general skills, knowledge, ideas, techniques, experience, and know-how acquired in the course of the engagement, provided that it does not disclose CLIENT Confidential Information.

16. ARTIFICIAL INTELLIGENCE AND AUTOMATION

16.1. If the Project involves artificial intelligence, machine learning, automation, generative AI, language models, or third-party AI platforms, the CLIENT acknowledges that outputs may be

probabilistic, incomplete, inaccurate, biased, non-unique, or dependent on the quality of inputs and third-party platform behavior.

16.2. ONESOURCE does not warrant that AI outputs shall be legally sufficient, commercially successful, error-free, fit for regulated decision-making, or suitable for use without human review.

16.3. The CLIENT shall be responsible for reviewing, validating, approving, and supervising all AI-assisted outputs before operational, legal, financial, employment, academic, medical, customer-facing, or regulatory use.

16.4. ONESOURCE shall not be liable for losses arising from the CLIENT's unsupervised, improper, unlawful, or unauthorized use of AI outputs.

17. THIRD-PARTY PLATFORMS

17.1. The CLIENT acknowledges that certain Deliverables may depend on Third-Party Materials.

17.2. ONESOURCE shall not be liable for third-party outages, API changes, pricing changes, service limitations, data loss, account suspension, security incidents, software bugs, license restrictions, or deprecation of third-party services.

17.3. If a third-party platform change requires rework, redesign, reintegration, or additional development, such work shall be treated as a Change Request.

18. WARRANTIES

18.1. ONESOURCE warrants only that the Services shall be performed with reasonable skill and diligence and that the Deliverables shall substantially conform to the approved Acceptance Criteria.

18.2. Unless otherwise stated in the Annex, the warranty period shall be thirty (30) calendar days from acceptance, deemed acceptance, go-live, or deployment, whichever occurs first.

18.3. During the warranty period, ONESOURCE shall correct reproducible defects materially attributable to its own workmanship and within the approved scope. This warranty period includes one (1) month of free basic troubleshooting from the date of final acceptance or handover, whichever occurs first. For clarity, "basic troubleshooting" means fixes to delivered workflows and configurations and basic how-to support. It does not include new features, new automations, new pages, redesigns, content creation, advertisement management, or issues caused by third-party platforms or the CLIENT's own modifications.

18.4. The warranty shall not apply to defects or issues caused by CLIENT misuse, unauthorized modification, third-party systems, hosting problems, data corruption, unsupported environments, changes in requirements, force majeure, security incidents not caused by ONESOURCE, or matters outside the approved scope.

18.5. Except as expressly stated herein, ONESOURCE disclaims all other warranties, whether express, implied, statutory, or otherwise, including merchantability, fitness for a particular

purpose, uninterrupted operation, error-free performance, non-infringement, profitability, or business success.

19. SUPPORT AND MAINTENANCE

19.1. Support and maintenance shall be provided only if expressly included in the applicable Annex or covered by a separate agreement.

19.2. Unless otherwise agreed, support shall be rendered remotely.

19.3. Post-warranty support, enhancements, monitoring, backups, cybersecurity services, new features, system administration, or additional training shall require a separate agreement or approved Change Request, or may be covered under the Monthly Managed Services set out in Annex B.

20. NON-SOLICITATION AND NON-CIRCUMVENTION

20.1. During the term of this Contract and for two (2) years thereafter, the CLIENT shall not, directly or indirectly, solicit, recruit, hire, engage, contract with, employ, induce, or attempt to induce any employee, consultant, contractor, subcontractor, developer, engineer, designer, project manager, business analyst, vendor, introduced contact, or personnel of ONESOURCE to leave, reduce, bypass, or alter their relationship with ONESOURCE.

20.2. The CLIENT shall not circumvent ONESOURCE by directly engaging ONESOURCE personnel, subcontractors, consultants, vendors, or introduced business contacts for services similar, related, or connected to the Services.

20.3. Breach of this Section shall render the CLIENT liable for liquidated damages equivalent to twelve (12) months of the gross compensation, fees, or commercial value of the person or engagement concerned, without prejudice to ONESOURCE's right to recover actual damages, attorney's fees, and injunctive relief.

20.4. The Parties agree that the liquidated damages are reasonable in view of recruitment costs, training costs, confidential exposure, project knowledge, client access, opportunity loss, and business disruption.

21. INDEMNITY

21.1. Each Party shall indemnify and hold the other harmless from claims, damages, liabilities, penalties, costs, and expenses arising from its breach, gross negligence, willful misconduct, violation of law, unauthorized disclosure of Confidential Information, or infringement caused by materials supplied by such Party.

21.2. The CLIENT shall indemnify ONESOURCE from claims arising from CLIENT-provided data, materials, instructions, content, systems, business operations, unlawful data processing, regulatory non-compliance, third-party platform violations, unauthorized modifications, or use of Deliverables outside the agreed scope.

22. LIMITATION OF LIABILITY

22.1. To the fullest extent allowed by law, ONESOURCE's total aggregate liability shall not exceed the amount actually paid by the CLIENT for the specific affected milestone or, if the claim relates to the entire Project, the total fees paid to ONESOURCE during the three (3) months immediately preceding the event giving rise to the claim.

22.2. ONESOURCE shall not be liable for indirect, incidental, consequential, special, exemplary, or punitive damages, including loss of profit, loss of revenue, loss of goodwill, loss of business opportunity, reputational harm, business interruption, data loss, or third-party claims.

22.3. The limitations under this Section shall apply regardless of the theory of liability and shall survive termination.

23. TERMINATION

23.1. Either Party may terminate this Contract for material breach if the breaching Party fails to cure the breach within fourteen (14) calendar days from written notice.

23.2. ONESOURCE may immediately suspend or terminate this Contract upon written notice if the CLIENT:

a. fails to pay any amount when due;

b. repeatedly delays approvals, access, data, or dependencies;

c. breaches confidentiality, data privacy, intellectual property, non-solicitation, or non-circumvention obligations;

d. uses the Deliverables for unlawful or unauthorized purposes;

e. exposes ONESOURCE to legal, regulatory, reputational, operational, or security risk;

f. becomes insolvent or ceases business; or

g. materially changes the Project in a manner unacceptable to ONESOURCE.

23.3. The CLIENT may terminate for convenience upon thirty (30) calendar days' prior written notice, provided that it fully pays all completed work, work-in-progress, committed resources, non-cancellable expenses, third-party costs, reimbursable expenses, demobilization costs, and applicable termination charges.

23.4. Upon termination, ONESOURCE may withhold Deliverables, source code, repositories, documentation, credentials, deployment, or turnover materials until full payment.

24. EFFECTS OF TERMINATION

24.1. Upon termination or expiration:

a. all unpaid amounts shall become immediately due and demandable;

b. ONESOURCE shall cease work except for paid transition services;

c. licenses not fully paid for shall cease;

d. unpaid Deliverables shall remain the property of ONESOURCE;

e. fully paid and accepted Deliverables may continue to be used subject to this Contract; and

f. provisions intended to survive shall remain enforceable.

25. FORCE MAJEURE

25.1. Neither Party shall be liable for delay or failure to perform caused by events beyond reasonable control, including acts of God, natural disasters, fire, flood, earthquake, epidemic, pandemic, war, terrorism, civil disturbance, labor disturbance, government action, power interruption, internet outage, cloud service outage, cyberattack not caused by the affected Party, third-party platform failure, or similar events.

25.2. Timelines shall be extended for the duration of the force majeure event and a reasonable remobilization period.

26. NON-EXCLUSIVITY

26.1. This Contract shall not create an exclusive relationship unless expressly agreed in writing.

26.2. ONESOURCE may provide similar services to other clients, including those in the same or related industries, provided it does not disclose CLIENT Confidential Information.

27. GOVERNING LAW AND VENUE

27.1. This Contract shall be governed by and construed in accordance with the laws of the Republic of the Philippines.

27.2. Any dispute arising from or relating to this Contract shall first be submitted to good faith negotiation. If unresolved within thirty (30) calendar days, the Parties may submit the matter to mediation under applicable Philippine alternative dispute resolution rules.

27.3. If judicial action becomes necessary, exclusive venue shall lie with the proper courts of **Quezon City, Philippines**, to the exclusion of all other venues.

28. NOTICES

28.1. Notices shall be in writing and sent to the addresses or official email addresses stated in this Contract or the applicable Annex.

28.2. Notices sent by email shall be deemed received upon successful transmission, unless the sender receives an automated failure notice.

28.3. The Parties' official email addresses for notices under this Contract are: ONESOURCE — info@onesource.com.ph; jen.reyes@onesource.com.ph; CLIENT — bleucielautomations@gmail.com.

29. ASSIGNMENT

29.1. The CLIENT may not assign this Contract without ONESOURCE's prior written consent.

29.2. ONESOURCE may assign this Contract to an affiliate, successor, or entity acquiring substantially all its business or assets, provided that the assignee assumes the applicable obligations.

30. SEVERABILITY, WAIVER, AND AMENDMENT

30.1. If any provision is declared invalid, the remaining provisions shall remain valid and enforceable.

30.2. Failure or delay in enforcing any right shall not constitute waiver.

30.3. No amendment shall be valid unless made in writing and approved by both Parties.

31. ENTIRE AGREEMENT

31.1. This Contract, including its Annexes, constitutes the entire agreement between the Parties and supersedes all prior discussions, proposals, negotiations, representations, or agreements relating to the subject matter hereof.

32. ELECTRONIC SIGNATURES AND COUNTERPARTS

32.1. This Contract may be executed in counterparts and through electronic signatures, each of which shall be deemed an original.

IN WITNESS WHEREOF, the Parties have signed this Contract on the date and place first above written.

(Project Proposal Reference No. OSP-26002)

1. PROJECT OVERVIEW

Based on discovery discussions and the requirements provided by Bleuciel Automations, ONESOURCE shall implement a complete lead system for Bleuciel Automations Inc Brands on GoHighLevel, covering: Facebook ads (managed in-house by the CLIENT) to a new landing page built inside the CLIENT's own GoHighLevel sub-account, an organized CRM pipeline, automated email and SMS follow-up for non-responsive leads, Messenger auto-response on the Bleuciel Automations Inc Brands Facebook and Instagram pages with instant sales-team notifications, and showroom appointment booking with automated reminders to reduce no-shows.

Proposed Start Date: October 19, 2026. Estimated Completion: November 30, 2026 (approximately 6 weeks).

2. PROJECT OBJECTIVES

- Respond to every new inquiry instantly — no lead waits for a reply.
- Log every lead in one CRM pipeline so nothing slips through unlogged.
- Recover cold and non-responsive leads with automated email/SMS follow-up.
- Make showroom and online demo booking self-serve, with automated confirmations and reminders to reduce no-shows.
- Give the CLIENT's team one place to work leads, with instant notifications on new inquiries.
- Migrate the CLIENT's existing (approx.)142 active deals from monday.com into GoHighLevel so the team starts from current pipeline data.
- Leave the CLIENT with a GHL sub-account owned by the CLIENT's business and a trained team ready to run it.

3. SCOPE OF SERVICES

3.1 GoHighLevel Sub-Account Setup

- Set up a new GoHighLevel sub-account using SALIGCRM registered under Bleuciel Automations Inc.
- Configure 3 users with appropriate roles and permissions: Ken Ty (admin), Vince, and Kath.
- Connect Facebook Pages and Instagram accounts for Messenger auto-response and lead capture.
- Set up phone number(s), SMS configuration, and email sender identity.

3.2 Landing Page (FB Ads → Landing Page)

- Design and build a new conversion-focused landing page inside the CLIENT's GoHighLevel sub-account.
- Offer: "Book a Showroom Visit (Makati)" or "Free Online Consultation" — with booking forms wired directly into the GHL calendar and CRM.
- Landing page copy structure, lead capture form, mobile-responsive layout, and thank-you/confirmation experience.

- Lead source tracking so the CLIENT can measure which ads and campaigns bring the leads. Note: the CLIENT's in-house team continues to manage Facebook ads; ONESOURCE connects the ad traffic to the landing page and pipeline.

3.3 CRM Pipeline & Contact Import

- Configure the sales pipeline to match the CLIENT's flow: New Inquiry → Replied → Hot Lead (asks price / showroom / quote) → Discovery Call → Showroom Demo → Quotation → Down Payment → Closed.
- Custom fields for machine interest, budget, showroom vs. online, and other lead details the team needs.
- Import the CLIENT's existing (approx.)142 active deals from monday.com into GoHighLevel with pipeline stages mapped correctly.

3.4 Email & SMS Campaign for Non-Responders

- Multi-day automated campaign sequences for leads who do not respond — a mix of reminder, value (e.g. showroom invitation, financing/warranty info), and direct call-to-action messages.
- Drip content drafted for the CLIENT's approval before activation.
- Automatic stop rules: the moment a lead replies or books, the drip stops and the lead is handed to the team.

3.5 Messenger & Instagram Automated Replies + Instant Sales Notification

- Automated first response on the Facebook pages and Instagram accounts, so every inquiry gets an immediate reply (within minutes), day and night.
- Reply flows built from Bleuciel's own FAQs, machine packages, and showroom details: the automation answers common questions — prices, packages, showroom location and hours, how demos work — using pre-approved answers written from materials the CLIENT provides.
- Structured conversation flow that captures the lead's name, contact details, and intent (price / showroom visit / quotation), and logs everything into the CRM automatically.
- Hot-lead handover: when a lead shows buying intent, the automation immediately hands the conversation over, with instant notification to Vince and Kath via the GoHighLevel mobile app and SMS, so a human takes over the live conversation.
- All reply content is drafted from CLIENT-approved FAQs and materials; ONESOURCE configures the flows, triggers, and handover rules using GoHighLevel's native workflow automation.

3.6 Showroom Appointment Booking + Automated Reminders

- Two booking types in the GHL calendar: Makati showroom demo (30–45 mins) and online video consultation (15–30 mins), open Monday–Saturday, 10:00 AM–3:00 PM.
- Retire Calendly and move all booking into GoHighLevel — bookings land directly in the CRM pipeline.

- Automated confirmation and reminder sequences (e.g. day-before and same-day) designed to reduce no-shows.
- Reschedule/cancel links and internal calendar sync so the team always sees the live schedule.

3.7 Testing, Training & Handover

- End-to-end testing of every workflow: ad → landing page → CRM, Messenger flows, drip sequences, notifications, booking, and reminders.
- Live CRM walkthrough and training for Ken, Vince, and Kath.
- Documentation / summary for operating the lead system day to day.

3.8 Reporting Dashboard & Sales Performance Reports

- Custom reporting dashboard inside the CLIENT's GoHighLevel sub-account — included in the one-time project fee — showing total leads, bookings, show rate (booked vs. actually showed up), and stage-to-stage conversion.
- How it works: every lead, booking, and pipeline movement is already recorded in the CRM as the team works — the dashboard simply turns those live records into charts, so performance is visible at a glance without anyone having to compile a report.
- Per-sales-rep views: since each lead is assigned to Vince or Kath in the CRM, the dashboard will include performance views per sales rep — leads handled, bookings set, show rate, and conversions — so activity and results per rep can be monitored.

4. PROJECT DELIVERABLES

WORKSTREAM	DELIVERABLES
GHL Account set-up under SALIGCRM	New GoHighLevel sub-account for Bleuciel Automations Inc.; 3 users configured; Facebook/Instagram integration
Landing Page	New conversion landing page in GHL with lead capture and booking forms; ad-to-page tracking
CRM & Pipeline	Pipeline configured to the CLIENT's sales flow; custom fields; approx. 142 active deals imported from monday.com
Lead Campaign	Email/SMS campaign sequences for non-responders with stop-on-reply rules
Messenger & IG Automation	Automated reply flows for Messenger + Instagram based on approved FAQs, packages, and showroom details; lead capture; instant notification and handover of hot leads to Vince and Kath
Booking & Reminders	GHL calendars for showroom demos and online consults; confirmation and reminder sequences to reduce no-shows
Training & Handover	Team training walkthrough; documentation / SOP summary

Reporting Dashboard	Custom GHL dashboard: leads, bookings, show rate, conversion; per-sales-rep performance views (Vince, Kath)

5. IMPLEMENTATION TIMELINE

Proposed Start Date: October 19, 2026. Estimated Completion: November 30, 2026. Estimated Duration: approximately 6 weeks from kickoff.

PHASE	TIMELINE	KEY ACTIVITIES
1. Discovery & Architecture	Week 1	Finalize offer details, pipeline stages, Messenger scripts, drip content outline, booking setup, technical plan
2. GHL Account, Landing Page & Pipeline	Weeks 1–3	GHL sub-account setup, landing page build, pipeline configuration, custom fields, FB/IG integration
3. Messenger, Drip & Booking Automation	Weeks 3–4	Auto-response flows, notifications, email/SMS drip sequences, calendars and reminder automation
4. Import, Testing & QA	Week 5	monday.com import (142 active deals), end-to-end testing of all workflows, revisions
5. Training & Handover	Week 6	Team training, documentation/SOP, final handover, go-live

6. THIRD-PARTY COSTS

Third-party subscriptions, usage charges, and transaction fees are not included unless specifically stated otherwise.

- GoHighLevel subscription under SALIGCRM and usage fees (paid directly by Bleuciel Automations Inc. to SALIG AI).
- SMS usage fees for auto-replies, notifications, and drip messages.
- Phone number(s), email sending services, and domain/hosting costs, if applicable.
- Facebook advertising spend — ads remain managed in-house by the CLIENT.
- Other third-party software, APIs, or integrations, if any.

7. PROJECT ASSUMPTIONS

- The CLIENT will provide timely access to required accounts: Facebook Business Manager, Instagram, monday.com, email, phone numbers, and other dependencies.
- The CLIENT will provide brand assets (logo, photos, videos, testimonials) and approved content for the landing page and drip messages in a timely manner.
- The CLIENT will provide the top FAQs and approved responses for the Messenger auto-response flow.

- Messenger auto-response is an automated first reply within minutes; human follow-up remains with the CLIENT's team.
- Third-party platform capabilities and availability remain subject to the respective providers.
- The scope is limited to the deliverables expressly stated in this Contract. Requirements outside the approved scope may require additional fees and/or timeline adjustments.
- Facebook ads creation and management remain in-house with the CLIENT's team.

8. INCLUDED POST-HANDOVER SUPPORT

The following support is included in the one-time project fee at no additional charge: one (1) month of free basic troubleshooting from the date of final acceptance or handover, whichever occurs first. "Basic troubleshooting" means fixes to delivered workflows and configurations and basic how-to support. For the avoidance of doubt, basic troubleshooting does NOT include new features, new automations, new pages, redesigns, content creation, advertisement management, or issues caused by third-party platforms or the CLIENT's own modifications — those are subject to additional payment under Section 8 (Change Requests) or the Monthly Managed Services in Annex B.

9. DATA PRIVACY & CUSTOMER INFORMATION

The system will be designed with consideration for the customer information Bleuciel Automations intends to collect through the landing page, CRM, Messenger, email, and SMS workflows. ONESOURCE will implement appropriate system access, permissions, and data-handling configurations within the agreed technology stack. Final legal and regulatory compliance remains subject to review by the CLIENT's legal and compliance advisers.

10. PROJECT OUTCOME

At the completion of the Project, the CLIENT will have a complete lead system on its own GoHighLevel sub-account: a conversion landing page fed by its Facebook ads, an organized CRM pipeline with its current approx. 142 deals imported, instant Messenger auto-response with immediate sales-team notifications, automated email/SMS follow-up so no lead goes cold, and self-serve showroom/online booking with reminders to cut no-shows — operated by a trained team of three, with documentation to run it day to day. Also included: automated Messenger and Instagram replies based on the CLIENT's FAQs, plus a reporting dashboard for monitoring leads, bookings, show rates, and per-rep performance.

ANNEX "B"

FEES, BILLING, AND PAYMENT SCHEDULE

1.1. The total fixed one-time project fee (per Proposal OSP-26002) is PHP 150,000.00, payable according to the following milestone schedule:

INVOICE	MILESTONE	AMOUNT
1	50% Down payment — upon contract signing / project approval	PHP 75,000.00
2	20% — Upon completion and written acceptance of the GHL account, landing page & pipeline milestone (Annex A, Phases 1–2)	PHP 30,000.00
3	15% — Upon completion and written acceptance of the Messenger, drip & booking automation milestone (Annex A, Phase 3)	PHP 22,500.00
4	15% Balance — Upon final written acceptance, completion of training & handover (Annex A, Phase 5)	PHP 22,500.00

1.2. Monthly Managed Services: The Monthly Managed Services is an optional service that the CLIENT may elect to engage at PHP 20,000.00 per month, commencing the month following final handover (after the free one-month basic troubleshooting period in Annex A, Section 8). If engaged, the Monthly Managed Services shall be invoiced monthly and due within five (5) calendar days from submission of the invoice, unless otherwise stated. Either Party may discontinue the Monthly Managed Services at any time by written notice to the other Party.

1.3. Each invoice shall be due and payable within five (5) calendar days from submission of the invoice, unless otherwise stated, in accordance with Section 9 of this Contract.

1.4. The one-time project fee is fixed for the approved scope set forth in Annex A. Work outside the approved scope shall require an approved Change Request and shall be subject to additional fees in accordance with Section 8.

1.5. Fixed price — strictly as stated. The one-time project fee of PHP 150,000.00 is strictly for the Deliverables expressly stated in this Contract and Annex A. Any alterations, additional requirements, revisions beyond the agreed acceptance process, or other items that arise during or after the Project and are not expressly included in this Contract shall be subject to additional payment, and shall be performed only under a written Change Request approved by both Parties in accordance with Section 8 (Change Requests).

1.6. Included at no additional charge: one (1) month of free basic troubleshooting from the date of final acceptance or handover, as described in Annex A, Section 8 and Section 18 of this Contract. "Basic" troubleshooting covers fixes to delivered workflows and configurations and basic how-to support only; anything beyond basic — including new features, new automations, new pages, redesigns, content creation, or advertisement management — is subject to additional payment.

1.7. Ancillary expenses such as accommodation, miscellaneous fees, hazard pay, and other logistics requisite for onsite support are not encompassed within the payment plan.

1.8. Third-party costs listed in Annex A, Section 6 (including GoHighLevel subscription and usage fees, SMS usage fees, phone numbers, email sending services, domain and hosting costs, Facebook advertising spend, and other third-party software, APIs, or integrations) are not included in the one-time project fee and shall be paid directly by the CLIENT or reimbursed in accordance with Section 11.
