BLEUCIEL AUTOMATIONS INC — GHL Lead System Questionnaire

GoHighLevel Lead System Implementation

Reference OS-C-26002 · Prepared for Bleuciel Automations Inc.

How this works

Thank you for the trust! Rather than one giant questionnaire, we split everything into two batches so your team is never overwhelmed.

Batch 1 — Kickoff Essentials is what we need to START production. Please return it by kickoff week (*between October 20-23, 2026*).

Batch 2 — Review & Go-Live comes later, together with our drafts (reply flows, landing page, follow-up messages). You only review and approve — no writing from scratch.

We are sending you the full document now so nothing is a surprise — but you may start with Batch 1 and set Batch 2 aside until our drafts arrive.

The two batches at a glance

- Batch 1 — Kickoff Essentials: contacts, access, brand materials, packages & pricing, FAQs, showroom details, booking rules, pipeline stages, monday.com export. Due: kickoff week (*between October 20-23, 2026*).
- Batch 2 — Review & Go-Live: approve our drafts, confirm notifications and dashboard preferences, schedule training. Due: within five (5) business days of receiving our drafts.

Ground rules (all batches)

- One single approver: please name one person whose sign-off is final. This protects the timeline.
- Write "N/A" where a question does not apply.
- Attach files, links, and drafts where requested — Google Drive, Dropbox, or Google Doc links are welcome, especially for info-heavy answers. Original/vector logo files preferred. Please make sure any links you share with us are set to **"Anyone with the link can view"** so we can access the files without any issues.
- Security: never write passwords in this document. We will arrange a secure way to share access.
- Return each batch to your OneSource project manager (jen.reyes@onesource.com.ph) and Charlene (info@@onesource.com.ph).

Batch 1 — Kickoff Essentials

Please return during kickoff week (*between October 20-23, 2026*). This batch feeds the build: GHL sub-account setup, landing page, CRM & pipeline, Messenger/Instagram automation, booking calendars, and follow-up campaigns.

Short answers are fine. Attachments and links are even better.

E. FAQs for the Messenger & Instagram automation

Per the contract, the reply flows are built from your FAQs and approved answers. This is the most important section for the automation — please be thorough.

19. Please send your top 10 FAQs with the approved answers (attach a document or write them below — Google Doc links welcome).

Top 10 FAQs and approved answers:
How much? — Each setup is different, so our team will prepare a quotation based on your needs. May we ask a few quick questions?

What's included (Ricoma)? — The machine, business consultation, 3 days of on-site training, business setup guidance, a dedicated support team, and help finding suppliers.

I have no experience. Can I do this? — Yes. Most of our clients start from zero, and our hands-on training teaches you to run the machine.

What support do I get after buying? — Free lifetime phone and video troubleshooting, plus our technical team for on-site service.

Where is your showroom? — Ricoma: 1278 Batangas St., Makati City. Sinsim, JACK, BRUCE and Bullmer: 5865 Zobel Roxas St., Makati City. Both have parking.

I'm outside Metro Manila. — We serve clients nationwide; setup and shipping are included in your quotation.

Which machine is right for me? — It depends on what you'll produce, your volume and your space.

Our team will recommend one in a short call.

Do you sell supplies? — We sell needles, bobbins, oil and parts, and can recommend suppliers for thread, backing and blank shirts.

Do you do digitizing? — Yes, our digitizing team can do it as a paid service.

Other brands (Sinsim, JACK, BRUCE, Bullmer)? — The automation asks which machine they want and what they will use it for, then hands them to a sales rep.
